PROJECT

JOB PORTAL

[WEBSITE](#) | [CODE](#)

Developed a feature-rich job portal to connect job seekers and employers, enhancing the recruitment process and improving user experience. The platform caters to individuals looking for job opportunities and organizations aiming to streamline their hiring workflows.

LEGAL SATHI

[WEBSITE](#) | [CODE](#)

Legal Sathi is a web-based platform designed to simplify legal processes by connecting individuals and businesses with legal professionals. The platform provides tools for case management, document preparation, consultation booking, and real-time updates, ensuring a seamless legal experience for users.

DETOXIFY

[WEBSITE](#) | [CODE](#)

Detoxify is an intelligent web application designed to simplify the process of searching and understanding various topics. It empowers users by providing curated, accurate, and relevant information on a wide range of subjects. The platform acts as a knowledge hub, making it easy to access and digest complex information.
